

SERIES 1100 BASKET AND LINE STRAINERS

FLOW-GUARD
Filtration Products

Basket and Line Strainers

- Efficient system protection.
- Easy installation & maintenance.
- Durable 304 stainless steel construction.
- Various body & screen sizes available.
- Grooved ends standard, available with optional flanged ends.

Flow-Guard™ Line Strainers

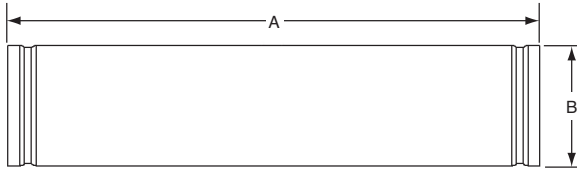

Simple in-line strainer effectively captures sand and other materials, preventing potential downstream problems. Recommended as secondary or backup filtration only. Commonly used as added protection in media filter systems.

Flow-Guard™ Basket Strainers

Performs the same functions as the above mentioned Line Strainers but the body styles accommodate a variety of connection types. Easy access to strainer allows for quick, in-line access.
